

A photograph of a vast field of green sorghum plants, likely used for bioethanol production, under a clear blue sky. The plants are in the foreground and middle ground, stretching to the horizon. The sky is a uniform light blue.

Grupo
DELOTTE

About us

We are a business group working in the production of sustainable food and the development of innovative solutions for the market.

We ingeniously produce, process and market food for the whole world. We have integrated ourselves into our value chain to quickly adapt to the needs of our customers. By being true to our word and having confidence, we can grow through strategic alliances and constant innovation, ensuring the supply of the different markets and the satisfaction of our customers.

Our vision

To be a reliable company in food production to meet global demands, and provide innovative solutions for the production of consumer goods in a sustainable way.

About our organic production

- Our current production covers an area of more than 5000 hectares, which means an 8-fold growth in the last 5 years.
- Our portfolio includes marketing and production of corn, soybeans, wheat, sunflower, popcorn, bean varieties (dark red kidney, mung beans, black beans and adzuki), chickpeas and fresh lemons, which means diversification of more than 5 times our original portfolio.
- The Group's strategy is guided by the global market trend, which focuses primarily on sustainable production, maintaining the long-term productivity of the land, and striving to meet growing consumers' demand for organic food.

About our organization

Our value chain guarantees environmental protection through the different departments or divisions of our company:

- **Quality Department:** It is responsible for the selection and certification of the fields before sowing, ensuring traceability and issuing documents.
- **Production Department:** it is responsible for the selection of the seeds, the preparation of the soil, the sowing, the monitoring of product development and the management of the harvest.
- **Logistics Department:** It is responsible for the safe transportation of the products to our processing and storage plants.
- **Trade Department:** It is responsible for the sale of our products in the local and international market
- **Foreign Trade Department:** It is responsible for the shipment of the products and the fulfillment of all the customers' requests.
- **Management Department:** It is responsible for setting the direction and business strategies of our group of companies.
